The 9th Cambodia Int'l
Machinery
Industry Fair

6 – 9 August 2025

Diamond Island Convention & Exhibition Center
Phnom Penh, Cambodia

POST SHOW REPORT

CTG & CIMIF 2025, held with CitaTex and CambodiaPlasPrintPack, wrapped up with remarkable success, attracting nearly 8,400 attendees. The exhibition highlighted global textile, garment, Plastics, Printing, Packaging, Auto Parts, Agrotech and Machine Tools trends, featuring cutting-edge products. Notably, near half of the visitors explored digital transformation and upgrade solutions and more than 80% of attendees expressed high satisfaction with the exhibitor arrangements. This influential event is set to drive Cambodia's industry to new heights.

Cambodia is an emerging market, especially compared with Vietnam, Indonesia. We believe this is the very potential market, also we notice that a lot of new companies from other countries are entering here to establish their business. We believe Cambodia has strong development prospects, which is exactly why we are here.

ZHEN PENG

Marketing Manager
HIKARI (SHANGHAI) PRECISE
MACHINERY SCIENCE AND TECHNOLOGY CO.,LTD.

CIXING has over 30 years of experience, specializing in the production of computerized knitting machines. These machines can be used to produce sweaters, shoe uppers, and more. Cambodia presents a promising market for business expansion — that's why CIXING is here.

BEN LYU

Foreign Trade Manager
NINGBO CIXING CO.,LTD.

There are three main reasons why we chose to be in Cambodia. First, Cambodia's economy continues to grow steadily. Second, labor costs are lower compared to China and Vietnam. Finally, the government strongly supports investment through policies such as reducing import tariffs on machinery.

CONNIE

Overseas Sales-Asia Region
RICOMA (HUIZHOU) CO., LTD

We chose Cambodia to expand our business, because it is growing very big way in textile market. We can see about 25 percent of growth in the textile sector. Despite ongoing tariff and supply chain challenges, Cambodia remains a highly promising market at this moment.

S K. PRABU

Regional Manager
JAY CHEMICAL INDUSTRIES PRIVATE LIMITED

Our core products are Drive and Conveyor Chains, serving key industries such as cement, sugar, packaging, food & beverage, automotive, and seaport operations. We aim to further strengthen our brand presence through trade shows, digital marketing, and social media engagement.

MICHAEL LIM KOK WEE

General Manager-Sales
TSUBAKIMOTO SINGAPORE PTE LTD

We provide fully automatic production of 5 Gallon Bottle and local patented Gallon Cap, and use the world's most advanced PET Preform Injection molding system and PE water Cap - Continuous Compression Molding Machine system. The output of a single machine is the highest(No.1) in the local area. The most stable products, fast delivery, and fast service.

HUGO KIM HOUT

General Manager
SING FU SUN(CAMBODIA)PLASTIC CO.LTD.

We develop or represent new products every year in response to customer needs and market trends. This year, our new offerings include a rubber/plastic deodorizer, PET high-temperature masterbatch, PP/PE flame retardant masterbatch, and PETG modified material.

ERIC ZENG

Sales Engineer
GUANGDONG GKEY NEW MATERIAL TECHNOLOGY
CO., LTD

SUNCUE, originating from Taiwan, has a proud 60-year history. In Cambodia, we have been established for around 20 years, serving numerous customers in Battambang and Kampong Cham. Many leading companies use our machines, which are also exported to 16 other countries worldwide.
